**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Ruland on 6 August 2004.

The application has been amended as follows:

**IN THE CLAIMS:**

**Claim 20:**

Please cancel claim 20.

2. Reason for amendment:

The applicant agreed to cancel claim 20 to expedite prosecution and did not acquiesce to the proposed 35 USC 112, second paragraph rejections by the Examiner. The Examiner had proposed to reject claim 20 under 35 USC 112, second paragraph for reasons of indefiniteness because the claim does not define what the cooled effluent was in relation to the fuel cell, and it was unclear to the Examiner what the first circuit was and whether the limitation following the word "when" was a positive limitation of the claim.

3. Claims 1-19 are allowed.

Art Unit: 1745

4. The following is an examiner's statement of reasons for allowance:

The closest prior art of record, McIlroy et al. (US Pat. No. 6,077,490) discloses a process using partial oxidation for converting hydrocarbon fuels into a hydrogen-rich gas for use in a fuel cell (col. 1, lines 15-22), the process comprising the steps of filtering the effluent of the partial oxidation process (syngas) with two filters installed in parallel (col. 2, lines 30-36), the filtering step comprising using the parallel filters in an alternate mode such that one filter is used for filtering while the other filter is being cleaned (col. 2, lines 1-5 and Figure 1). However, McIlroy et al. do not disclose, teach, or suggest the distinguishing feature that any one of the two filters has a filtration surface area/useful volume ratio between 80 and 5000 m<sup>-1</sup>.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications should be directed to examiner Susy Tsang-Foster, Ph.D. whose telephone number is (571) 272-1293. The examiner can normally be reached on Monday through Friday from 9:30 AM to 6:00 PM.
